

ENVIRONMENTAL POLICY

We are committed to environmental responsibilities for all our activities.

We will continually improve the management of our operations to minimise impact on the environment and to reduce the exposure of any person to environmental related risks.

We will strive to achieve industry best practice commensurate with our contractual and commercial obligations. We will comply with environmental legislation, regulations and other requirements as a minimum standard. We will seek to continually improve our system and regularly review our objectives and targets.

We will adequately train our staff to understand their obligations and we will adequately instruct and supervise our consultants, contractors and suppliers to ensure conformance with prevailing environmental safeguards.

We will document and implement our integrated corporate Environmental Management System with its corresponding project planning and documentation for each site. We will achieve and maintain certification to AS/NZS ISO 14001 : 2004.

This policy is available to the public upon request
